X-46 Escalator Cleaner

1-866-284-3255

www.cimex-usa.com

A dirty escalator will detract from the overall appearance of your facility. On the other hand, a clean, well-maintained escalator will make a very positive impression. **X-46 Escalator & Travelator Cleaner** quickly and thoroughly cleans dirty escalator and travelator treads. Aggressive twin brushes turn against the motion of the escalator to aggressively lift and remove debris, which is then picked up by the powerful vacuum and deposited into a disposable paper bag. Choose between two types of brushes for routine maintenance or a more aggressive clean.

APPLICATIONS:

- Airports
- Subways
- Train Stations
- Shopping Malls
- Retail Stores
- Hotels
- Resorts
- Casinos

Technical Specifications

Voltage	110 volt
