

## Headline Goes Here

Tornado's 2500 B Series of Clean-Air Glazers are the industry's premiere burnishing machines, boasting 2500 rpm of burnishing speed, rugged roto-molded housing, adjustable pad pressure, and a high-strength steel linkage mounted with a 2.5 HP motor. Simple to use and even easier to maintain, the 2500 B far outperforms the competition's comparable units. Available with an optional maintenance-free, sealed traction-drive model.

The sloped battery housing is designed with operator sight-lines in mind, allowing an unobstructed view of approaching obstacles. Safety switches prevent operation when the cover housing is removed or the pad holder raised. The units come complete with batteries, charger, and 20" pad holder.

Best yet, the 2500 B is a "Clean-Air" machine. Twin filters allow virtually dust-free burnishing, a significant factor when operating in sensitive environments such as schools, healthcare facilities, and retail stores. The filters are easily removable for washing and replacement as the need arises.

### 2500 B Series of Clean-Air Glazers

The ultimate in high-speed burnishers, clean-air performance, durable, easy to use, and long-lasting

#### **Easy operation**

Speed and direction can be changed during operation via an easy-to-use, dual-function control knob.

#### **Clean-Air filtration**

The 2500 B has a clean-air filtering system that allows dust free operation, an important consideration when working in an area with IAQ (indoor air quality) concerns.

#### Ease of use

The 2500 B tips back and rests on a specially-designed rear bumper. This permits easy pad holder access, pad replacement, and filter maintenance.

#### Convenient

The double-walled, roto-molded battery cover housing is durable and easy to remove for battery maintenance.

# A complete package

The unit comes standard with batteries, charger, and pad holder.

#### Smart design

The unit's sleek profile and contoured housing provide optimal sight lines for safe operation and an unobstructed view of the burnishing path.
