

Wrangler® 1708/2008

Compact Automatic Scrubbers

Ergonomic design, simple operation and a compact body make the Wrangler 1708 and Wrangler 2008 the best values in small scrubbers.

- Designed for applications from 10,000 to 30,000 square feet, these Wranglers are perfectly sized for small office buildings, convenience stores, and nursing homes. They are also ideal for larger facilities with confined areas, such as grocery store checkout aisles, school cafeterias, commercial kitchens, and hospital rooms.
- Wrangler compacts feature an 8-gallon solution tank and an oversized 10-gallon recovery tank, which allows room for foam, helping protect the vacuum motor from moisture.
- The 32-inch straight squeegee features a breakaway assembly to prevent damage when it inadvertently catches on any fixed object. Reconnecting is as simple as hand tightening two control knobs.
- To simplify pad changing, a foot latch at the front of the machine allows the body to tilt up and back. This also provides easy access to the batteries and all internal components.
- Wrangler compacts are available with a 17-inch or 20-inch scrubbing path in either battery-powered (AB) or cord-electric (AE) models.
- The on-board charger, standard on all battery-powered Wrangler automatic scrubbers, allows the batteries to be charged anywhere an electrical outlet is available.

DO NO HARM™

The steel frame is recyclable, reducing this Wrangler's environmental footprint.

Pad rotation assists with machine propulsion, reducing operator fatigue.

The quiet operation (66 dBA) allows extended use in daytime cleaning environments.

- 1 The ergonomic handles provide increased control while reducing operator fatigue.
- 2 Clear-view top port cover permits operator to easily monitor solution recovery.
- 3 8-gal solution tank and 10 gal recovery tank for increased productivity.
- 4 The on-board battery charger allows recharging anywhere an outlet is available.
- 5 Rotocast polyethylene body is dent-resistant and durable, backed by a 10-year warranty.
- 6 Two 12V 115 AH batteries power the vacuum and brush motors on the cordless models. The PROeye battery fluid indicator lets the operator easily monitor when a battery needs water.
- 7 Two 8 in rear wheels and swivel front casters make the Wrangler 1708/2008 extremely maneuverable.
- 8 The oversized 32 in squeegee picks up in forward and reverse, swinging wide on turns to recover all solution.
