FIVESTAR

The amazing FiveStar is a small, self-contained unit with powerful brush agitation to clean carpets, hard floors and grouted tile. It weighs only 40 pounds so it's light enough for anyone to handle, plus the compact body design and fold-down handle make it a breeze to transport and store. Remove two screws and the machine opens like a clamshell for fast service. The FiveStar is small enough to clean tight spaces and corners yet powerful enough to perform well in any commercial setting. A revolutionary bladder design allows you to fill and empty out of the same bucket and eliminates the need to pour solution into the machine. Simply fill the bucket, set it on the machine, close the lid and begin cleaning. No more spills or mess!

Fold-down handle for easy storage and transport

SPECIFICATIONS

Solution Tank	3 gallon
Lift off Recovery Tank	3 gallon
Solution Pressure	50 psi
Vacuum Motor	112 CFM, 2 HP

POLARIS 801PS, 1201PS

For wide open spaces where productivity is the bottom line, the 800 and 1200 models clean quickly and efficiently. These larger self-contained units come equipped with dual vacuums to more thoroughly clean and dry carpets. The Polaris has a built-in silencer so you can clean without interrupting the workflow. Top quality construction, remarkable ease of operation and versatility combine for a machine that consistently outperforms the competition. Dual lift-off recovery buckets with no hose

Quick-fit accessories

to detach allow easy emptying. Maintenance is a breeze as well—just remove two screws and open like a clamshell for quick internal access.

New optional valve allows you to adjust the performance of the machine for regular maintenance or heavy-duty restorative cleaning.

FEATURES

- Large wheels, adjustable handle and light-weight construction team up for easy handling and storage.
- Optional accessories quickly attach to the rear of machine for cleaning stairs, upholstery, etc.
- Patented dual lift-off recovery buckets provide quick and convenient emptying.
- Patented four-wheel design for balance and reduced turning radius.
- High speed brush motor and brush guarantee powerful agitation to release deeply embedded soil and grit, extending carpet life.
- Patented brush system utilizes fully sealed stainless steel ball bearings for years of trouble-free operation.

SUPERNOVA

There is literally nothing like the Supernova series—remarkable self-contained extractors that clean in both forward and reverse! The patented two-way system provides unparalleled productivity in any setting—clean up to 4,000 square feet in one hour. All models operate forward in hallways and

Optional accessories for versatile cleaning

other open areas, but with a simple pull of a lever instantly change to reverse to clean corners and other tight areas for a dramatic reduction in labor costs. A specially designed vacuum head allows cleaning on hard floors in addition to carpets, without any cumbersome attachments. Just walk off carpet on to hard floors—it's that simple. Dual vacuum motors and a 19" cleaning width on the 800 and 1200 models combine with a host of other exclusive features to guarantee unrivaled performance.

BRAVO SPOTTER

AVAILABLE WITH HEAT!

The new Bravo spotter delivers incredible efficiency and power in a deceptively small package. No set up time—simply unload and begin cleaning immediately. Compact size and maneuverability make it ideal for spotting and quick cleaning of small carpeted areas, upholstery and auto interiors. Operators will appreciate the specially designed molded-in holders that carry spray bottles, leaving the hands free.

Porthole allows easy access to recovery tank

Over time it's a winner too, thanks to the upright-mounted vacuum motor and oversized recovery tank that combine to insure longer motor life. The Bravo is now available in a 2-gallon or 3-gallon size and most models come complete with hose assembly and tool.

FEATURES

- Optional in-tank heater delivers 170-degree heat. (239BH-HT & 339BH-HT)
- Unique molded-in holders carry spray bottles for greater ease.
- Large six-inch wheels and an optional transport handle plus cord wrap assembly make it a snap to wheel about.
- Quickly opens up for easy servicing and repair.
- Large porthole on recovery tank allows easy access for odor-free maintenance.

OPTIONAL ACCESSORIES

GALAXY HEAT READY!

Introducing our exclusive new line-up of Galaxy carpet extractors that now comes “heat-ready.” Life’s little decisions just got a whole lot easier! You can purchase any Galaxy without heat and if you change your mind, no problem. Simply order our exclusive new external heater, and away you go. Placing the heater on the outside also insures that everything on the inside of the machine runs cooler, extending the life of the vacuum and pump motors. The stainless steel heater tank is guaranteed for life. If a repair is necessary, simply lift the heater off the back of the machine. Meantime, you can continue to use the unit without heat.

From a seller’s standpoint, there’s no need to purchase both heated and non-heated units – just stock machines and heaters. Your customers can start with a non-heated model then later upgrade to heat without having to purchase a whole new machine. The “heat ready” Galaxy includes a 25-foot vacuum and solution hose assembly.

****Also Available:** Our basic contractor’s model, slightly more economical and complete with 15’ hose assembly, with or without heat. Heated model includes a 1200-watt

external-mount heater and works with a single power cord.

SPECIFICATIONS

Solution Tank	12 gallon
Recovery Tank	11 gallon

GALAXY PRO

HEAT READY!

This is the big brother to our popular Galaxy series with a large 17-gallon capacity housed within an extremely portable unit that's affordably priced. The new "heat-ready" Galaxy Pro includes all the great features of our standard Galaxy model with the added benefits of an optional adjustable 500 psi and the ability to clean extremely large areas quickly and professionally. Versatility is the name of the game with the heat-ready system. You can purchase the machine without heat and then later decide to add heat without having to buy a new unit. The external heater makes repairs a snap, and it keeps the heat away from the internal components, extending the life of the machine. All units are available "heat ready." The Galaxy Pro comes complete with a 25-foot hose assembly and a 50-foot detachable power cord.

GALAXY 5 NOW AVAILABLE HEAT READY!

One look at our new compact addition to the Galaxy series and you'll realize that it is possible to have your cake and eat it too! The Galaxy 5 was designed for remarkable heat and power all housed within an incredibly lightweight and portable package. The Galaxy 5 is an obvious choice for auto detailing and for those jobs where a small yet powerful unit makes more sense. It's light enough for anyone to handle and the fold-down handle makes it a snap to transport and store. We've also added an exclusive baffle system for exceptionally quiet operation. The new optional external heater can be removed in seconds if a repair is necessary, and the stainless steel heating element is guaranteed for life. The Galaxy 5

comes complete with a 15-foot hose assembly.

POWERMATE

1204AC

Why use a standard wand when you can get a combination of powerful brush agitation and speed in a super lightweight attachment with wheels—all at a bargain price! So lightweight and maneuverable, the Powermate will triple your productivity. No more backaches and fatigue from slow, tedious cleaning with a wand. The Powermate attaches to any portable unit to remove deeply imbedded soil and grit at record speed! A high-speed cylindrical brush gets down to the base of the carpet fibers for more effective cleaning. Available with 1½” diameter handle. Choice of standard unit up to 100 psi or high heat up to 300 psi.

FEATURES

- Weighs only 15 lbs.
- See-through front cover.
- Sealed, stainless steel ball bearings.
- High-speed 2500 RPM brush for deep cleaning.
- Heavy-duty aluminum handle.
- Adapts to all EDIC extractors.

OPTIONAL ACCESSORIES

- B00216 Adapter to plug Powermate into standard wall outlet
- 00206-1A Receptacle, power wand (factory installed)

- 1800AC-200 High heat—up to 500 psi

1800AC

The ultimate in speed and power for a deep down clean! Powermate 1800AC attaches to any portable or truckmount extractor for cleaning tough, dirty high-traffic areas. An 18” wide cleaning path and high-speed brush save valuable time and reduce operator fatigue. This power brush is designed to clean right up to baseboards and into corners. Its fully adjustable handle fits any size operator and the low profile makes it a breeze to get under furniture. Choice of standard unit up to 150 psi or high heat up to 500 psi.

FEATURES

- 0-90 degree adjustable handle plus fingertip controls for easy handling.
- High-speed chevron-style brush for deep cleaning.
- See-through sight glass to monitor recovery.
- Heavy-duty steel handle.
- Adapts to all EDIC extractors.
- 5 Spray tips.

SPECIFICATIONS

GLIDEMASTER WANDS, TOOLS, HOSE ASSEMBLIES

Single or Dual-Jet Stainless Steel Wand

The Glidemaster wands allow for easy pickup under furniture and desks. The head is winged to prevent overspray and the insulated handle, valve lever and grip ensure operator comfort. The dual-jet version has an S-bend for superior pickup under all types of furniture. Dual-jets guarantee maximum pressure for fast and thorough cleaning. Standard or high-pressure models available—up to 1000 psi. 1½” diamter.

MODELS

1033AC/1033ACH	Single jet: Standard/High Pressure
1034AC/1034ACH	Dual jet: Standard/High Pressure
1034ACH-500	Dual jet: High Pressure up to 500 psi

Width:	12”
Length:	60”
Weight:	7.4 lbs.
Shipping Weight.:	12 lbs.
Ship Dimensions:	12” x 13” x 65”

Aluminum Squeegee Wand

Our new aluminum squeegee wand can be attached to any extractor with 1 ½” diameter to provide thorough cleaning of hard floor surfaces.

MODEL

334AC Single jet squeegee wand

Width:	14.5”
Length:	55.5”
Weight:	5 lbs.
Shipping Weight:	9 lbs.
Ship Dimensions:	12” L x 13”W x 65”H

Single-jet 9” Stainless Steel Wand

This wand is perfect for use with smaller extractors like the FiveStar. 1¼” or 1½” diameter available.

MODELS

330ACS	1½” fittings—100 psi - All other EDIC Extractors
330AC	1¼” fittings—100 psi - Fivestar

Width:	9”
Length:	60”
Weight:	8 lbs.
Shipping Weight.:	11 lbs.
Ship Dimensions:	12” x 13” x 65”

Traditional Hose Assemblies

Available with choice of standard or high heat-high pressure models. Lengths from 10’– 50’. 1½” or 1¼” hose cuffs. Complete with fittings, see page 35.

Connector—Model # J00630

Allows you to quickly connect two hose assemblies together for extra length, see page 35.

Easy Mop

Bucketless Floor Cleaning System

The Easy Mop is a self-contained dispensing mop system that cleans floors, ceilings and walls with no spills, no mess. A zero-gravity trigger-action sprayer with an adjustable nozzle makes it easy to clean up the sides of walls and even ceilings and get into corners and tight spaces. The Easy Mop is designed to work in tandem with green chemicals and requires much less chemical than a standard mop.

FEATURES

- Pressurized reservoir – cleans up to 3,200 sq. feet per filling.
- Easy-grip activator is ergonomically sound and activates solution with a slight downward movement, reducing operator fatigue.
- Non-shrinking microfiber-pile mop provides increased absorbency and can be laundered over 500 times before replacement.

MODELS

4000EM	Easy Mob
4500GG	Microfiber Pad (Green/Green)
4500GW	Microfiber Pad (Green/White)

Cast aluminum with black powder coat upholstery tool with see-through window, enclosed spray chamber, 3-ft. pigtail and recirculating notches, decreasing water build-up in spray chamber for faster drying time. High pressure available.

Lightweight stainless steel stair tool is made of high quality components and built to last. High pressure up to 1000 psi.

MODEL —1021AC (1½" diameter)

Weight: 2 lbs. Ship Wt: 3 lbs.
 Width: 4" Length: 8"

Prespray wand constructed of brass with 25' hose.

MODELS

323AC—up to 100 psi
 323ACH— High heat, high pressure
 Weight: 3 lbs. Ship Wt: 5 lbs.

AVIATOR

Axial Fan

Superior performance design and engineering makes our new axial fan the most efficient in the industry, providing more CFM with a lower amp draw. Use our large-sized blower to tackle even the toughest water damage restoration and carpet drying jobs in a hurry. With an amazing velocity of 3000 CFM at a super-low 2.3 amps, the Aviator literally blows away the competition! The bottom line is a much faster drying time which puts more money in your pocket. A built in GFCI outlet means you can link together multiple units using only one 15-amp circuit for the really big jobs. Plus the dual-direction airflow and choice of drying positions make it extremely versatile. The Aviator axial fan is uniquely designed with 360-degree stacking for easy loading and storage. It's lightweight with an ergonomically-designed handle and convenient cord wrap for easy transport and maneuvering. Comes complete with an hour meter to monitor usage.

Built-in GFCI outlet for linking multiple units on a single circuit

Aviator with wheels

Easy and secure 360-degree stacking of units

SPECIFICATIONS

Housing	Roto-molded Polyethylene
Motor	0.25 HP
Speeds	2
Power	120 Volts
Electric Draw	2.3 amps
Impeller	16.5" diameter
Stackable	Yes
Power Cord	25 ft. Yellow Safety Cord
Weight	29 lbs.
Shipping Weight	36 lbs.
Dimensions	20.5"H x 20.5"L x 16"W
Ship Dimensions	21"H x 21" L x 16" W

AQUA DRI (patents pending)

Portable Air Mover/Carpet Dryer

EDIC's Aqua Dri hosts a series of exclusive features that put it far ahead of the pack and make it indispensable for quick drying of carpet and hard floors. The Aqua Dri's unique body design makes it super easy to stack for storage or transport. There are two models to choose from: The standard unit offers three-speed drying with a $\frac{1}{2}$ HP motor and 2400 CFM. The larger Aqua Dri Pro offers three-speed drying with $\frac{1}{2}$ HP (2700 CFM) for the ultimate in power. Both models can be easily adjusted to four different positions for drying carpets, furniture, curtains, ceilings—you name it! Available with optional carpet clamp.

Accordion hose attachment for attics and other hard-to-reach places

Optional carpet clamp

FEATURES

- Exclusive hi-tech design makes it the most versatile, compact and portable air mover in the industry.
- Heavy-duty polyethylene housing with new "granite" look is durable and never looks dirty.
- Balanced carry-along handle distributes weight evenly for superior portability.
- Easy to store or stack for transport.
- Thermally protected motor

OPTIONAL ACCESSORY

- 13168A Accordion hose attachment
 Length: 15 ft. Diameter: 10 in.
 Tightening belt allows hose to attach to the nose of the Aqua Dri or other competitive air mover.
 Yellow with black fabric wear strip.

EXTERNAL HEATER SYSTEM

A revolutionary new way to clean with heat!

SPECIFICATIONS

Pressure	Up to 1300 psi
Tank Construction	Stainless Steel
Shipping Dimensions	8 ¼"H x 24"L x 8 ¼"W
Power cord	50 ft. detachable
Electric Draw	14.2 amps

WARRANTY

Lifetime on stainless tank and rotationally-molded housing, 2 years on parts and labor

The EDIC external heater system is the only one of its kind.

- Our exclusive "heat ready" system, available on the Galaxy, Galaxy Pro, and select Galaxy 5 models, gives you the option of purchasing a machine without heat and then adding the heater at any time.
- Ours is the only detachable heater on the market that mounts on the outside, taking only seconds to attach or remove. Placing the heater on the outside has another advantage – it insures everything on the inside of the machine runs cooler, thereby extending the life of the pump and motors.
- The stainless steel tank and heating element eliminate galvanic corrosion and clogs in the solution flow that can obstruct heat transfer.
- This system really heats up fast, delivering 210 degrees of heat in about 90 seconds. If a repair is necessary, just lift the heater off the back of the machine. It's that simple!

Our entire line of heated extractors has the heater system mounted on the outside for greater longevity and ease of repair.

MODELS

- 605HR 2000 watt heater kit for Galaxy, GalaxyPro and selected Galaxy 5 Models
- 602HR 1200 watt Replacement heater for Galaxy series automotive units

THE CONVERTER

MODEL: 986CO

The Converter gives a standard carpet extractor the versatility to be used as a dry vacuum. With a simple attachment, you get the superior suction power of an extraction machine to more thoroughly remove excess dirt and soil from carpets and floors. Available for use with the Polaris, Supernova and Galaxy series. **Item #L11028 Paper Filter Bags, 6-pack.**

CIRCUIT LOCATOR

MODEL: 988CS- with 1 wall outlet plug and one twist-lock to fit EDIC equipment

MODEL: 989CS- with 2 wall outlet plugs

So you've got two power cords and you need to find outlets on different circuits? No problem! Just plug the circuit locator with an extension cord into two wall outlets – the sensor instantly lights up when it's good to go. Use it anytime for any equipment. Prevents potential power overload by taking the guesswork out of locating circuits.

BAZOOKA GUM REMOVER SYSTEM

Our patented gum removal machine lets you stand up while instantly removing spot after spot of ground-in gum, sticky candy and adhesive from carpets, hard floors and concrete. Complete with carpet brush.

MODELS

420AC Bazooka	High torque electric with 25-foot cord
422AC Bazooka Junior	
421AC Bazooka Cordless	Battery Powered

OPTIONAL BRUSHES

- F03472 Soft brush for carpet (blue)
- F03473 Professional for carpet (brown)
- F03474 Concrete brush (green)

BAZOOKA SPOT REMOVER

- Item #N00901 (non-aerosol)
- 100% biodegradable, organic, citrus-based solvent for use with the Bazooka.
- Case of 12 14-oz. cans.

GALAXY AUTOMOTIVE

COMES STANDARD WITH HEAT!

Nothing beats these machines for getting at deeply imbedded dirt and grime in auto upholstery and carpet and removing it for good! The winning combination is lots of heat plus high-performance vacuums for squeaky-clean interiors and faster drying time. There are 2 basic models to choose from: a single-cord unit with a 3-stage vacuum or a dual-cord unit with dual 2-stage vacuums. All models come with our exclusive new external heater that makes repairs a snap and keeps heat away from the motor chamber, extending the life of the internal parts. The heater can be removed in about 15 seconds if need be, and the unit cleans with or without heat. The Galaxy's hi-tech design houses a large 12 or 17-gallon tank inside a compact body for exceptional portability. Comes complete with a vacuum and solution hose assembly. Tools sold separately.

FEATURES

- 1200 watt or 2000 watt in-line external heater delivering up to 200 degrees in just 90 seconds.
- All heaters tested to 2500 psi to insure quality operation in the severest environments.
- Durable stainless steel heating chamber and heating element.
- Exclusive external heating system for easy removal and repair.
- External heater design removes heat from the motor compartment keeping the vacuum motors and pump running cooler.
- Opens quickly like a clamshell for easy servicing.
- Powerful and lightweight – ideal for single operators.
- “No drip” motor cavity guarantees water spilled on the outside of machine stays outside and won’t accumulate in the motor compartment.

OPTIONAL ACCESSORIES

- 1038AC Stainless steel crevice tool
- 1035AC Stainless steel van tool
- 1039AC Stainless steel detailer tool

GALAXY 5

COMES STANDARD WITH HEAT!

The Galaxy 5 was designed for remarkable heat and power all housed within an incredibly lightweight and portable package. The exclusive external heater design, with stainless steel heating chamber and heating element, delivers up to 170 degrees on demand. The unit can be operated on a single power cord, which gives it the versatility to be used in a variety of settings. The heater can be removed in about 15 seconds if a repair is necessary, and the stainless steel heating chamber comes with a lifetime guarantee. The Galaxy 5 is an obvious choice for auto detailing and those jobs where a small yet powerful unit makes more sense. It's light enough for anyone to handle and the fold-down handle makes it a snap to transport and store. We've also added an exclusive baffle system for exceptionally quiet operation. The Galaxy 5 automotive unit comes complete with a 15-foot vacuum and solution hose assembly. Tools sold separately.

BRAVO SPOTTER

WITH HEAT!

The new 17-pound Bravo spotter delivers incredible efficiency and power in a deceptively small package. No set up time—simply unload and begin cleaning immediately. Compact size and maneuverability make it ideal for spotting and quick cleaning of small carpeted areas, upholstery and auto interiors. Operators will appreciate the specially designed molded-in holders that carry spray bottles, leaving the hands free. Over time it's a winner too, thanks to the upright-mounted vacuum motor and oversized recovery tank that combine to insure longer motor life. The Bravo comes complete with a vacuum and solution hose assembly. Tools sold separately.

SPECIFICATIONS

Solution Tank	3 gallon
Recovery Tank	3.5 gallon
Solution Pressure	55 psi
Vacuum Motor	2 stage, bypass
Water Lift	85"
Handle	Adjustable, 22-37"
Wheels	6 inches

ATLAS (patents pending)

After years of careful planning, our new Atlas is taking the back-pack vacuum market by storm. Feature for feature, it simply defies the competition! It's light enough for anyone to handle and the ergonomically-designed Velcro straps at the chest and hips result in a comfortable fit for virtually any sized operator. A special slide adjustment hooks the shoulder straps together for a higher range of motion. The on/off switch is at the hip level and mounted on top for unparalleled ease of operation. Our unique airflow design makes this unit quieter than most and the baffled exhaust goes out the back, away from the operator, for a higher level of comfort. The Atlas comes with our extraordinary Ultrastat™ 3-ply composite filter treated with an anti-microbial

agent that provides exceptional airflow even when full, allowing for greater productivity. This exclusive bag is fitted with a durable plastic rim for an airtight seal around the top, and the seams are sonically welded (as opposed to glued). The result is higher dust retention, and a much longer filtration cycle.

FEATURES

- Longer exhaust chamber and diffused exhaust air for quiet operation.
- EDIC Ultrastat™ filters have better filtration efficiency, greater dust retention and longer useful life than Micro filter bags because Ultrastat's™ revolutionary synthetic material allows greater air flow even when the bag is full.
- 3-Position hip adjustment for wider or narrower hips allows the unit to sit more comfortably on the hips.
- Ergonomically designed harness with multi-adjustable settings for optimum comfort.
- Light-weight – only 10 lbs.
- Hip-mounted switch results in easy on/off.
- Precision-molded cloth filter bag rim holds it's shape to prevent collapsing inside the unit when the bag is full.
- Optional Hepa filter available on 10-qt units.
- Available in 220-volt and in 400 cycles for the aviation industry.

ELECTRIC POWER BRUSH KIT

366AC Kit includes electric power brush, telescopic wand, curved wand handle, crevice tool, dust brush, 5" upholstery tool and slide-on brush for upholstery tool.

FILTERS

The revolutionary new Ultrastat™ filters are made from a high-efficiency synthetic composite treated with an anti-microbial agent. They have greater dust retention, better filtration efficiency and a longer useful life than a standard Micro filter because they provide a much lower

pressure drop and therefore better CFM for longer periods of time. The Ultrastat™ filters are more durably constructed because the seams are sonically welded, as opposed to glued, and the rim is made from a durable plastic instead of cardboard.

DYNAMO CANISTER VACUUM SERIES

DYNAMO **NEW!** CANISTER VACUUM SERIES

6W/9W

The Dynamo Canister is a go-anywhere, do-anything vacuum with revolutionary features that take practicality to a new level. Need HEPA filtration? You got it! Need the noise level to be so quiet workers can make phone calls without being disturbed? You got it! Want one vacuum

for multiple jobs? You got it! Each model has its own unique features with versatility and ease at the core. Both vacuums incorporate a unique, color-coded filtration system that makes it simple to change from high filtration to HEPA or even to ULPA depending on the job.

SPECIFICATIONS

	6W/9W
Capacity	6/9 quarts
Motor	1050/1200 watts
CFM	105
Water Lift	100 inches
Electrical Draw	9/10.5 amps
Noise Level	62/59 decibels
Filtration	High/HEPA/ULPA
Power Cord	50 ft. detachable
Hose	8.5 ft.
Wheels	3" non-marking
Casters	2" non-marking
Switch guard	Yes
Tool kit	7-piece included
Tool Diameter	1.25 inches
Ship Dimensions	13.5"H x 14.5"L x 14.5"W
Weight	14/14.5 lbs.
Shipping Weightw/tools	23.5/24.5 lbs.
Safety Approval	UL/CSA

We recommend the 6-quart Dynamo for your everyday cleaning needs, providing durability and economy over the long haul. The 6W comes with a lifetime internal filter, which results in a dramatic reduction in long-term costs.

With its whisper-quiet decibel rating and remarkable filtration system, the 9W is the professional choice for use in healthcare environments and busy call centers. It features a double system of color-coded filters that give you the option of true high filtration, HEPA or ULPA filtration. An EDIC exclusive feature on the 9W allows you to switch the noise level down to a minimum, making it possible to vacuum even while employees use the phone.

The Dynamo canister vacuum series delivers total ease of operation and maintenance. A special indicator light lets you know immediately if the cord or the outlet is defective. The 50-foot power cord is detachable and the motor slides out for quick repairs. Filters can be swapped out in seconds to meet individual job requirements. Each unit comes complete with a standard 3-stage filter set and a 7-piece tool kit.

OPTIONAL ACCESSORIES

- L13126 Paper Filter Bags, 6W, 10-pack
- L13127 Paper filter bags, 9W, 10-pack

DYNAMO

CANISTER VACUUM SERIES

6W/9W FEATURES

- Units can be turned on their side with the hose facing up for cleaning hard-to-reach places.
- Unique indicator light lets you know if the power cord or the outlet is defective for easy troubleshooting.
- Telescoping wand makes it easy to clean high ceilings and walls.
- Switch guard protects the unit from foot operation.
- Removable filters make it easy to switch from high filtration to HEPA or ULPA depending on the job.
- Motor slides out and power cord is detachable for inexpensive, on-the-spot repairs.
- Exclusive lifetime internal filter on the 6W dramatically reduces long-term costs.
- Super low decibel rating on the 9W (59 decibels) plus exclusive noise reduction switch for cleaning during regular work hours, even if someone is on the phone.
- Special modular design with weight centered in the middle prevents unit from tipping over.

FILTRATION SYSTEM

Our unique 3-stage filter system is designed for complete flexibility, allowing you to choose the level of filtration to meet individual job requirements. The system includes a paper dust bag, the internal filter and a cartridge blow out filter.

- High Filtration—99% of all dust particles up to 3 microns including sand, dust mites, pollen, mite feces.
- HEPA Filtration—99.997% filtration at .3 microns including all of the above plus red blood cells, bacteria, mite feces dust, yeasts and fungi, tobacco smoke, virus
- ULPA Filtration—99.999% filtration at .1 microns for maximum cleanliness including all of the above plus E. Coli and Staph bacteria.

PAPER FILTERS

Our paper vacuum bags are more than a dust container. They are a vital part of the filtration system. The paper filter can be sealed completely before removing for a truly clean air system.

9W standard filter set

6W standard filter set

DYNAMO WET/DRY VACUUM SERIES

5W/8W

The new Dynamo series of wet/dry vacuums combines a host of impressive features including whisper quiet operation and incredible suction power—at a price that flattens the competition. The 5 and 8-gallon models are perfect for small spills and pickups without the need to drag out more cumbersome equipment. These models are compact for easy transport and storage yet powerful enough for heavy-duty commercial settings. A special noise reduction design means you can work anywhere, anytime without causing a disturbance. An optional HEPA filter is available with both models for three-stage filtration. Choice of stainless steel or polyethylene tank.

RELIANT DUAL-MOTOR VACUUM **NEW!**

This powerful upright vacuum is designed with a dazzling list of features to take cleaning to a new level. The dual motors and high filtration filter combine to handle tough commercial work environments. An onboard tool kit with stretch hose and telescopic wand allows the operator to easily clean those typically out-of-reach places like ceilings and baseboards. The brush housing has a super low profile that makes it a piece of cake to clean under desks and other obstacles, plus there's a four-position brush height adjustment to handle any kind of carpet. And that's only the beginning. All the major parts of the Reliant can be taken apart without tools for easy repairs, and it has a detachable power cord with plugs on both ends for easy replacement. The Reliant comes complete with onboard tools and is available with a 14 or 18-inch cleaning width.

Reliant comes standard with 4-piece tool kit

SPECIFICATIONS

PILOT AUTOMATIC SCRUBBER **NEW!**

Our amazing new automatic scrubber is ideal for deep cleaning of grouted pavers and hard floors. The Pilot gives you all the performance of larger, more expensive equipment but in a lightweight, compact size that's super easy to operate and store. At only 30 lbs, it's simple to transport to any job site. The Pilot's versatility makes it perfect for routine maintenance or periodic deep cleaning, especially in tight, obstructed areas such as restrooms or locker rooms.

The knockout punch of this machine is its rotary brushes. It features a pair of high-speed counter-rotating circular nylon brushes with two levels of bristles that deep-clean grout better than any cylindrical method. The flexing action of the flared nylon bristles scrubs the most difficult-to-clean mosaic tile and stone grouted floors with truly amazing results. Superior urethane squeegee blades allow one-pass cleaning or can be raised to double scrub for restorative cleaning.

The Pilot is the perfect green machine where less is more! It does not require harsh detergents that can damage sensitive stone and grout surfaces. It uses less solution, works in tandem with green chemicals and with its single motor, draws less amps.

EDIC's Pilot is user friendly and simple to operate and maintain. The recovery bucket, tank, brushes, squeegee and power cord can be taken apart in seconds to switch to other accessories. Optional nylo-grit brushes and pad holders can be attached for surface polishing and stripping of any hard surface.

FEATURES

- Unique dual counter-spinning rotary brushes (not cylindrical) with two levels of bristles for a deep down clean that outperforms the competition.
- Unbeatable performance in a compact size—only 30 lbs!
- Does the job of heavier, more expensive equipment but can be stored in a closet and is super easy to maneuver. It even fits on a maid's cart.
- Low carbon footprint—cleans with green chemicals, uses less solution and draws less power.
- Truly automatic—simply lower the handle to activate—no on/off switch!
- Comes complete with a high-quality squeegee that leaves floors clean and completely dry.
- A total cleaning system that promotes clean and sanitized stone, tile and hard floors.

NEW COMPANION PRODUCT!

Easy Mop bucketless cleaning system—Cleans walls, ceilings, and other hard-to-reach places with no spills, no mess. A pressurized all-inclusive reservoir cleans up to 3,200 sq. feet per filling. See page 14 for additional details.

SATURN HIGH SPEED

BURNISHERS

Available in traditional style or new 17" compact design with fold-down handle!

The Saturn burnishers make it simple to bring a smooth, super high-gloss luster to any hard floor surface. Watching these machines in action will make anyone a believer! The perfect combination of weight and high speed produces a spectacular finish in record time. Brand new to the line-up is a 17" 2000 RPM model with a fold-down handle and a special compressed design for the ultimate in portability and storage plus greater maneuverability in tight spaces. Our traditional 20" models are available in 1500 or 2000 RPM and both the traditional and fold-down models are designed with an all-metal construction including stainless steel brush cover, making them as durable as they are dependable. All models come complete with flex-lock pad driver and high-speed pad.

All Saturn floor machines are now available with an optional black powder-coated brush cover. All the same great features as our stainless steel models but at a more competitive price.

SATURN DUAL SPEED FLOOR MACHINES

Get more bang for your buck with one machine that does the work of two! Strip, scrub, spray-buff, polish, shampoo, bonnet clean... you name it, this machine does it all! Designed for professional floor care maintenance, the dual speed floor machines from EDIC are equipped with long-wearing steel triple planetary gearboxes, providing heavy duty yet quiet operation. Safety comes first with the exclusive "lockout" lever that allows the motor to be activated while keeping both hands on the handle grips. Use the lower speed to scrub and strip then just flip the switch to high speed and polish floors to a glossy luster. Operation is smooth and easy in even the toughest commercial settings.

FEATURES

- All-metal construction with stainless steel brush cover, heavy duty chrome-plated steel handle and 66 frame motor assure durability.
- All steel triple planetary gearbox provides heavy duty yet quiet operation.
- Turn a 17-inch machine into a 20" machine, or vice versa, by removing just four bolts.
- Dual trigger negative pressure switch allows operator to run with either hand.
- Safe two-handed start-up with exclusive "lockout lever".
- Cool running 1.5 HP high efficiency motor.
- 50-foot power cord.
- Non-marking PVC bumper prevents marks on walls and furniture.
- Available in 17" or 20" diameter.

OPTIONAL ACCESSORIES

1601/1901BR Pad Driver, with molded-in clutch plate

1603/1903BR Two-Piece Pad Driver

20DS3-SS 20" -180/320 RPM Dual Speed

WARRANTY

Lifetime on stainless brush cover, 3 years on parts and labor

All Saturn floor machines are now available with an optional black powder-coated brush cover. All the same great features as our stainless steel models but at a more competitive price.

SPECIFICATIONS

Brush Speed	Dual 180/320 RPM
Diameter	17" or 20"
Motor	1.5 HP/66 Frame
Gear Box	Steel triple planetary
Power Cord	50 ft. yellow
Cord Strain Relief	Heavy-duty steel with spring guard
Brush Cover	Stainless Steel
Handle Grips	Soft, anti-fatigue
Handle	Chrome-plated steel
Wheels	5 inches
Bumper	Non-marking PVC
Operation Control	All metal, dual on-off
Weight	86/92 lbs.
Shipping Weight	106/112 lbs.
Ship Dimensions	48"H x 26.5"L x 23"W
Electrical Draw	14.4/14.4 amps

SATURN LOW SPEED FLOOR MACHINES

No job is too tough for this rugged series of floor machines from EDIC. With its all-metal construction and steel planetary gear boxes, the Saturn can stand up to the heaviest workloads, yet the ride is surprisingly smooth and quiet. The low speed models are built specifically to handle the stress associated with stripping and scrubbing hard floor surfaces as well as bonnet cleaning and shampooing carpets. Features like the quick and easy handle adjustment, anti-fatigue design, and the exclusive "lockout lever" for safe two-handed start up make this machine operator friendly and a winner in every commercial setting. Available in six different models, there is a perfect low speed Saturn for any size job.

All Saturn floor machines are now available with an optional black powder-coated brush cover. All the same great features as our stainless steel models but at a more competitive price.

SPECIFICATIONS

Brush Speed	175 RPM
Pad Diameter	13", 17" or 20"
Motor	13" = .5 HP/1 HP 17" = 1 HP/1.5 HP 20" = 1 HP/1.5 HP
Gear Box	.5 HP/1.0 HP—dual planetary 1.5 HP—triple planetary
Power Cord	50 ft. yellow
Brush Cover	Stainless Steel/Powder Coated
Handle Grips	Soft, anti-fatigue
Handle	Chrome-plated steel
Wheels	5 inches
Bumper	Non-marking PVC
Operation Control	All metal, dual on-off
Weight	13" (.5/1 HP) – 91 lbs. 17" (1/1.5 HP) – 95 lbs. 20" (1/1.5 HP) – 98 lbs.
Shipping Weight	13" – 101 lbs. 17" – 112 lbs. 20" – 115 lbs.
Ship Dimensions	48"H x 26.5"L x 23"W
Electrical Draw	8.4/13.2 • 13.2/14.4 • 14.4/14.4 amps

FEATURES

- All-metal construction assures durability.
- All-steel triple planetary gearbox provides heavy duty yet quiet operation.
- Dual-trigger negative pressure switch allows operator to run with either hand.
- Turn a 13-inch machine into a 20" or any other combination, by removing just four bolts.
- Exclusive "lockout lever" is designed so operator can safely activate motor with both hands on the grips.
- Wide-gripping handle locking mechanism guarantees a tight lock and smooth adjustment.
- Non-marking PVC bumper prevents marks on walls and furniture.

OPTIONAL ACCESSORIES

390AC	Shampoo tank for carpets
1601BR/1901BR	Pad Driver with molded-in clutch plate
1603BR/1903BR	Two-Piece Pad Driver

For a complete listing of pad drivers, brushes and accessories, see page 33
