

# Advance Retriever™ 134B Walk-behind Sweeper

#### Standard Equipment Package:

- Main broom
- Two 12 volt/105 amp hour batteries and charger
- Dust filtration system with electric shaker
- Self-propelled drive

#### Optional Accessories:

- Side Broom
- Variety of main broom selections

#### Some Ideal Applications Include:

- Shopping Malls
- Parking lots and ramps
- Schools and Universities
- Airports
- Factories
- Convention Centers

The Retriever™ 134B is right at home whether it is sweeping up metal chips from a concrete factory floor or cleaning large expanses of carpeting. The 134B is an efficient hard-surface sweeper, ideal for factories, warehouses and other buildings with all types of floor surfaces.

The 134B quietly removes litter and surface dirt from carpeting. It is particularly well suited for cleaning the short-nap commercial carpeting installed today in buildings all over the world.

The Retriever 134B is very effective at capturing dust. The 134B can be used in place of brooms and other cleaning methods that can cause dust contamination.

Battery-powered and self-propelled, the 134B, with optional side broom assembly sweeps a 34 inch (86 cm) path, and is capable of cleaning up to 20,000 square feet (1860 m<sup>2</sup>) per hour in open areas. Battery power means no trailing cables and no searching for electrical outlets. All of which add up to increased operator productivity. Battery power also means quiet, fume-free operation; a definite advantage in indoor areas, where other types of power and loud noise would be prohibitive.

Operators find the Retriever 134B battery-powered sweeper as easy to service as it is to run. The dust filter removes easily without tools and the main broom adjusts by foot-lever.

# Advance Retriever™ 134B

## Walk-behind Sweeper

The 134B operates on two common 12 volt/105AH batteries.

Easy-to-empty hopper lifts out to empty and has two cubic feet (56 l.) capacity.

An impeller draws dusty air and traps it in a pleated paper filter. Electric shaker cleans filter.

On/off key switch. Twist-grip handles, for fully variable speeds forward and reverse.

Front panel door gives access to dust filter for routine maintenance.

Self-propelling provided by chain drive to wheels from gear-reduction motor.

Simple and easy to use controls. On/off key switch. Twist-grip handles, for fully variable speeds forward and reverse.

Tough, durable hopper is made from rotational molded polyethylene

Motorized side broom is optional.

**Only 71 dB(A) at operator's position**

## Setting Standards...

- Our products are value-priced to give you the best combination of price and performance for your investment.
- You can get expert service and maintenance for your products by factory-trained personnel around the world, as well as fast parts delivery.
- Maintain peak performance with genuine **apa** parts.

## Technical Specifications

<b>Power:</b>	Master Key Switch	<b>Dust Control:</b>	Broom motor also runs 10 inch (25 cm) diameter impeller and creates 200 cubic foot per minute (5660 l.) air flow to draw dusty air into filter media for clean air exhaust.
<b>Broom/Impeller Motor:</b>	.5 hp, 24 volt DC	<b>Dust Filter:</b>	Pleated paper with metal mesh on one side. 46 sq. ft. (4.3 m <sup>2</sup> ) filter area. A .07 hp/24 v DC shaker motor is activated to clear dust from the filter.
<b>Wheel Drive Motor:</b>	.18 hp, 24 volt DC motor with chain drive to wheels. Fully variable, forward and reverse electronic speed control.	<b>Coverage:</b>	Sweeps up to 20,000 square feet (1860 m <sup>2</sup> ) per hour in open areas.
<b>Batteries:</b>	Two 12-volt, 105 AH batteries. (Included with machine.)	<b>Dimensions:</b>	Height – 39.5 in. (100 cm) Width – 31 in. (79 cm) Length – 50 in. (127 cm)
<b>Main Broom:</b>	26 in. (66 cm) long, 10 in. (25 cm) diameter cylindrical broom with nylon bristles. Height adjustable; no tools required	<b>Weight:</b>	Net – 418 lbs. (190 kg) with batteries 310 lbs. (141 kg) w/o batteries Shipping – 486 lbs. (220 kg)
<b>Side Broom: (Optional)</b>	10 in. (25 cm) diameter brush with enclosed .125 hp drive motor. Quick detach mounting.	<b>Part Numbers:</b>	56 467 339 without Side Broom 56 467 341 with Side Broom
<b>Hopper:</b>	Rotational molded polyethylene with 2 cu.ft. (56 liter) capacity.		
<b>Sound Level:</b>	71 dB(A) at operator position
