SELF- LEVELLING SYSTEM

DETAILS

- The brush pressure with self-leveling and self-adjusting head, allows a perfect fit between the brush and floor
- System available as mechanical, electro mechanical or electronic according to machine models

MACHINES

- Available on all machines models

CT105

The CT105 is recommended for medium sized spaces and has been designed to be very easy to use while keeping electronics to a minimum. Featuring constant flow technology, full control of water flow, a large brush head and an oversized output of the dirt water tank, the CT105 is the most reliable, productive and simple machine in its category.

Other Features

- (CFS) Central Flow System solution distribution from brush center
- CWS (Constant Weight System) ensures maximum scrubbing results
- Exclusive squeegee system assures high performance at low cost
- High quality/ high performance vacuum motor
- Great maneuverability due to optimum weight distribution
- Squeegee blade can be used on 4 sides before replacement
- Easy access to internal components
- Designed to assure minimum noise levels
- Battery level indicator
- On board charger and external battery charger plug
- Inlet and outlet filters for maximum tank protection
- (AFS) Anti Foam System and shut off sensor protect vacuum
- Squeegee assembly and blade replacement without tools

CT105 TECHNICAL SPECIFICATIONS
