

M650, M750 & M830 ARE THREE NEW, USER-FRIENDLY RIDE-ON SCRUBBERS DESIGNED BY MACH FOR THE MAINTENANCE CLEANING OF AREAS UP TO 86,150 ft², WHICH ALLOW A DRAMATIC REDUCTION IN THE COST OF CLEANING.

Available with 2 PPL disks or pads of 26 in, 30 in, and 33 in which, combined to a speed of 3.8 mph, boast an area coverage of up to 53,700 ft²/h.

Our major aim was to design a compact range of machines, fast and productive, that can be purchased at a very competitive price. M650/75/83 are therefore a modern alternative to bulky walk-behind or outdated/out-sized ride-on scrubbers.

The range offers the economic advantage to be used up to four non-stop working hours thanks to the optimization of energy consumption. The compact size allows the machines to pass even through traditional doors or be transported in lifts.

M650/75/83 guarantee a dramatic reduction in the cost of cleaning, thanks to an extremely competitive purchase price and a complete set of standard equipment which reduces waste and consumption. No more time and costs wasted on operator training, thanks to the very simple and user-friendly controls.

VALUE ADDED FEATURES

- 10% - 20% GRADEABILITY
- NON-MARKING TYRES, IN PPL
- ON-BOARD BATTERY CHARGER
- LOW BATTERY CHARGE STOP VALVE
- ADJUSTABLE WATER SUPPLY, FROM 0 TO 1 gal/min
- WATER LEVEL SENSOR
- ERGONOMICAL INLET POINT FOR CLEAN WATER TANK
- VACUUM HOSE CAN BE WASHED TO AVOID CLOGGING
- RAPID REPLACEMENT TANK SEALS/GASKETS
- ANTI-TILTING BARS
- ADJUSTABLE SEAT
- REVERSE SPEED BEEPER
- LOW NOISE LEVEL: 63dB
- LOW BARICENTRE FOR BETTER STABILITY
- VERY COMPETITIVE PRICE!

THE RECOVERY TANK is equipped as standard with a stainless steel basket to avoid the passage of larger debris which may clog the system.

THE VACUUM-MOTOR is silenced, and guarantees a very low acoustic pressure level which is particularly appreciated in noise-sensitive environments such as nursing homes and hospitals.

THE EASY AND INTUITIVE CONTROLS ensure user-friendliness, without additional costs for operator training.

THE DRIVE MOTOR is completely sealed and protected by a strong, tubular bumper. Additionally, the machine is equipped with an anti-tilting device for increased safety.

THE TANKS boast a capacity of 29/33 gal, and thus guarantee a very high productivity and reduce time wasted for emptying/refilling operations.

THANKS TO THE OPTIMIZATION OF ENERGY CONSUMPTION, these machines can be used for up to four non-stop working hours

AUTOMATIC SQUEEGEE UNCOUPLING when accidentally impacted avoids damage to the machine or to the environment.

THE SCRUB DECK is equipped with a self-adjusting splash-skirt which, besides preventing the dirt water to splash during the cleaning session, allows for water-leaking prevention.

VALUE ADDED OPTIONS

- Brushes & Pads
- Batteries
- Battery charger
- Flashing light
- Hour meter

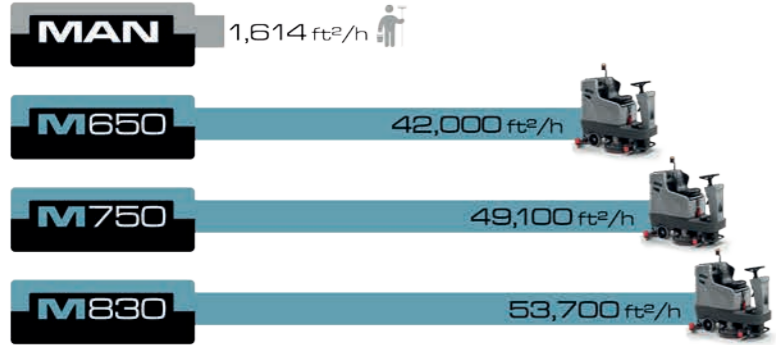

FIELDS OF APPLICATION

Industrial sites, communities and vicinities, schools, offices, religious buildings, hospitals, public buildings, airports, ports, shopping malls, logistical depots, cleaning companies, and multi services.

SUITABLE CLEANING SURFACES

Ceramics, marble, cement/concrete, linoleum, non-slip surfaces, porcelain tiling, and many other dirty conditions.

TECHNICAL SPECIFICATIONS	M650	M750	M830
Cleaning path	26 in	30 in	33 in
Cleaning capacity	42,000 ft ² /h	49,100 ft ² /h	53,700 ft ² /h
Fresh water tank capacity	29 gal	29 gal	29 gal
Recovery tank capacity	33 gal	33 gal	33 gal
Drive	electronic assisted	electronic assisted	electronic assisted
Forward speed	3.8 mph	3.8 mph	3.8 mph
Power	24V	24V	24V
Standard battery	4 x 6V	4 x 6V	4 x 6V
Battery charger	on-board	on-board	on-board
Weight (incl. of battery & charger)	757 lb	772 lb	787 lb
Size (without squeegee)	56 x 27 x 49h in	56 x 31 x 49h in	56 x 33 x 49h in
Squeegee width	36.2 in	38.6 in	41 in

MACH

SCRUBBERS LINE

THE NEW ECO LINE OF SCRUBBERS

Is made up of 13 models, available in 27 versions, and is ideal for the thorough cleaning and maintenance of small, medium and large size areas. The scrubbers are available either push-type or ride-on, and upon request can be equipped with the new, exclusive ECO system (patented), which breaks water economy and detergent saving barriers, and has won several awards (among them, the Veneto Sviluppo award issued by the University of Padua). The system has been designed to guarantee impressive labour/water/detergent savings, and boasts a productivity rate 3 times greater than traditional systems.
