# ***Sweeping Just Became Easier...***

With dual main brooms, dual side brooms, and a 26 inch wide sweeping path, the SW 26 manual sweeper offers outstanding sweeping performance, picking up debris from fine sand to larger trash such as crumpled paper and empty plastic beverage bottles. Dual side brooms sweep cleanly alongside baseboards and curbs, providing a clean sweep path. The fast and efficient SW 26 is much more productive, and much more effective, than standard push broom sweeping.

Sweeping with the SW 26 minimizes dust, which means better indoor air quality for building occupants and the dramatic reduction of scattered dust particles. Its quiet operation is ideal for noise-sensitive environments.

The SW 26 is easy to operate and maintain. The three-position folding handle can easily be adjusted for operator comfort. When the handle is folded over the top of the machine, the machine can be stood upright, or even hung from the wall, to minimize its storage footprint and extend the life of the brooms. The handle automatically locks the debris hopper in place to prevent accidental dumping during storage.

Ideal for a wide variety of hard surfaces, both indoor and out, the SW 26 provides efficient and effective sweeping results.

## **Compact and Packed with Features:**

- 1** Tools-free adjustable side brooms
- 2** Tools-free adjustable rear main broom
- 3** Dual caster wheels operate in the "clean path" behind side brooms
- 4** Variable handle height
- 5** Handle folds down to reduce storage footprint; or machine can be hung on wall
- 6** Large hopper collects debris

### **Ideal Applications Include:**

- Schools / Universities
- Office Buildings
- Convention Centers
- Hotels / Motels
- Convenience Stores
- Any Facilities with Hard Floors
- Hallways
- Sidewalks

A fold down handle enables the SW 26 to be lifted and transported with ease

The debris hopper can manage empty beverage cans, 20 oz plastic bottles, and other large debris

Handle folds down to reduce storage footprint; or machine can be hung on wall

SPECIFICATIONS	SW 26
Part Number	9084805010
Sweeping Width	26 in (66 cm)
Average Productivity (@2.5 miles per hour)	28,600 ft <sup>2</sup> /hr (2,650 m <sup>2</sup> /hr)
Hopper Size	1.2 ft <sup>3</sup> (34 L)
Side Brooms	Dual 10 in (25 cm) diameter with tools-free height adjustment
Main Brooms	Dual 17.7 in (45 cm) long with tools-free height adjustment on rear broom
Dimensions During Operation	Length: 51 in (130 cm) Width: 32 in (82 cm) Height: 40.5 in (103 cm)
Dimensions When Folded	Length: 13.6 in (34.5 cm) Width: 32 in (82 cm) Height: 35 in (89 cm)
Weight	35 lb (16 kg)

**What enhances its productivity?    What makes the SW 26 easy to use?**

- 3D Sweeping
  - Dual main brooms
  - Dual side brooms
  - Dual casters
- Side brooms sweep edges on both sides
- Lightweight
- Tools-free broom adjustment
- Variable handle height
