Image® ErgoEX® Series Extractors

Image 16ix / 20ix Extractors featuring ErgoEX® with Wash & Rinse®

**Takes Less Energy to Operate,
So You're 15% MORE Productive!**

How much can ErgoEX® save on claims?

- When a janitor suffers injury, the average time lost is **18 HOURS** and a back injury can cost an average of **\$11,000** in Workman's Comp costs.

(Reported Aug. & Sept. 2001 Contracting Profits).

Back-Save, Productivity Belt reduces:

- Operator shoulder strain by **80%**.
- Elbow strain by **60%**.
- Lower back strain by **18%**
- Fatigue - increases productivity by **15%**.

Wash & Rinse® gets carpets cleaner

- A solution spray is scrubbed into the carpet by a cylindrical brush, and then rinsed clean with water.

Wash & Rinse® clean and fresh

- Clean water rinses the soap and dirt out of carpets in just one pass. You do the same thing when you wash and rinse your hair.

Wash & Rinse® re-soils slower

- Soap is designed to be a dirt sponge, attracting dirt then holding on to it. That's just what is done when carpets are not rinsed.

Clean and rinse in one pass

- One-pass extraction means productivity. Rinsing means cleaner carpets, lower re-soil rates, and extended carpet life. Wash & Rinse® gets carpets cleaner, faster in a one-step clean and rinse cycle!

**Twice the Productivity ...
Half the Time**

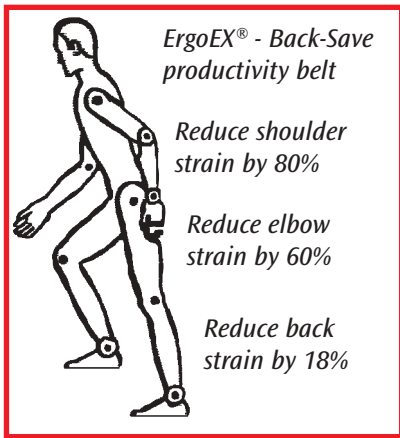

ErgoEX®

WASH&RINSE®

“We Do Carpets - No Runs, No Drips, No Errors ...” A Home Run EVERY Time!

Increases Productivity by 15%

Ergonomic handle easy to hold for operator comfort

Simple operation and control panel

Electronic float shutoff

Convenient solution access

Durable Polydur® construction

Superior maneuverability

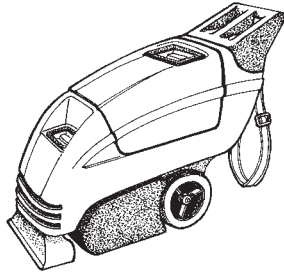

Double sealed brush bearing extends life

Pile height brush adjustment

Enclosed jets - no overspray design

Stainless steel wear shoes on recovery tool

No-tool quick-change spray jets on both i and ix models

KEY FEATURES

- ErgoEX® back save productivity belt
- Wash & Rinse one-pass cleaning
- InterEX interim or restorative mode
- Superior line-of-sight
- Productive 20 and 16 inch cleaning
- UL Listed

WHO USES THIS MACHINE?

- Public facilities
- Government and office buildings
- Airports, schools
- Hotels
- Universities, colleges
- Hospitals, nursing homes
- Cleaning contractors

WHAT DOES IT DO BEST?

- Cleans carpets faster
- Uses clean water to rinse soap out
- Most effective method of soil extraction on carpet in a single pass

WHAT MAKES IT EASY TO USE?

- ErgoEX® reduces effort, increases productivity
- Wash & Rinse no-mix chemical system
- One pass cleaning - no additional rinsing required
- Easy and convenient operator controls

WHAT ENHANCES ITS PRODUCTIVITY?

- ErgoEX® reduces stress on elbow, shoulder and back. Less physical effort increases productivity 15%
- Wash & Rinse automatic chemical injection system - no mix, no mess
- One pass cleaning system

WHAT ADDS TO ITS DURABILITY?

- Rotationally molded tanks
- 3-stage tangential bypass vac motor
- Two-way reversible brush
- Stainless wear shoes - recovery tool

WHAT ARE THE SAFETY FEATURES?

- Reduced body strain
- UL Listing standard on all models
- Safety - no open unsecured doors
- Hospital grade plugs

WHAT ARE THE OPTIONAL FEATURES?

- Chemicals, spotters, vacuums, air movers and more
