Multi-Purpose Floor Machine

Advance
by Nilfisk-Advance

FACT SHEET

TYPICAL APPLICATIONS INCLUDE

- Supermarkets
- Schools and Universities
- Hospitals
- Office Buildings
- Hotels / Motels

OPTIONAL ACCESSORIES INCLUDE

- A variety of brushes
- Splash Guard
- Spray-Buffer Mister Tank

Turning at 285 rpm, the high-speed All-Purpose Matador™ brings a floor to a deep, lustrous sheen in half the number of passes than with an ordinary floor machine.

That can make your labor savings as impressive as your floors. And that's just part of the story, because the All-Purpose Matador™ is more than just a great spray cleaning machine. It's also a great high-speed scrubber...and a great high-speed carpet shampooer — with the "Soft Touch" floating shampoo brush. A smooth disc carries the weight of the machine while a ring of bristles is gently forced into the carpet for deep-down cleaning.

But only the person who operates a floor machine for hours a day can appreciate all the features built into a Matador™: Precision balance for ease of operation...fingertip handle positioner...comfortable twist-grip starting...a safety interlock that prevents the machine from starting until the release button is pushed...and a big bumper to protect furniture and woodwork.

Advance All-Purpose Matador™ 20

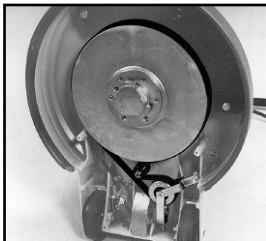

Multi-Purpose Floor Machine

Built-in solution tank is made to hold 3 gallons (11.4 L) of cleaning chemical. Solution control lever allows chemical to flow through shower feed of brush or pad holder.

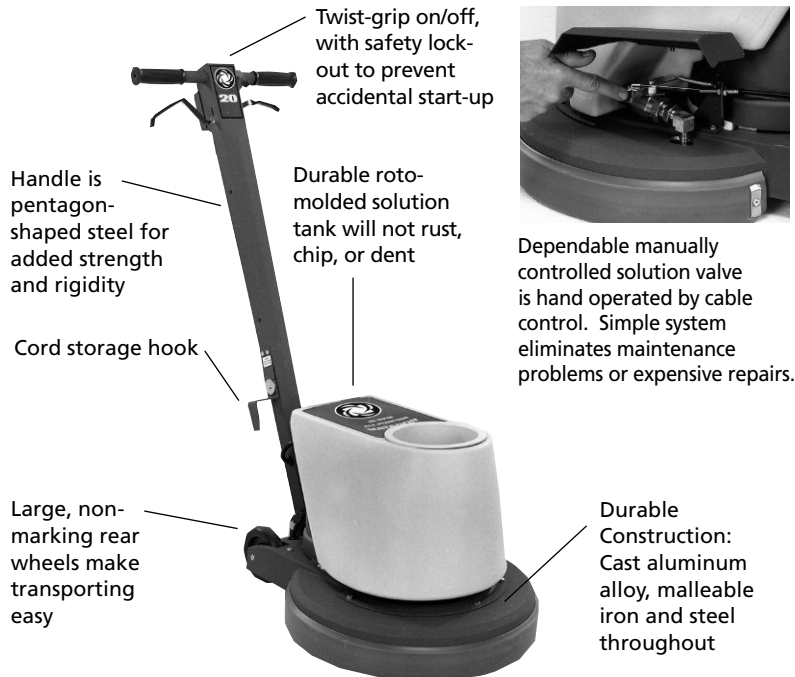

Convenient manually operated solution control lever is located below left hand grip in fingertip reach of operator. Just pull up to release flow of chemical through brush or pad holder.

The high speed Matador machines feature Power-Flex™ transmissions which use a poly-V belt with grooved pulley. It's been field proven for years to be durable and virtually maintenance free.

Converts to a great carpet shampooer with the "Soft Touch" floating shampoo brush attachment. A smooth disc carries the weight of the machine while a ring of bristles is gently forced into the carpet for deep-down cleaning.

Defining Cleaning Innovation...

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.
- Maintain peak performance with Nilfisk Genuine OEM Parts.

Nilfisk Genuine OEM Parts
