

Saber™ Glide

Rider Scrubber Series

Built to make the operator more productive

We listened when you told us how to build the rider scrubber you need. The Saber Glide Series was created to make the people who work with the machine more productive. From the person cleaning floors every day to the person responsible for maintenance, these riders deliver the performance features needed to get the cleaning job done faster.

To help you choose the most productive rider for your facility, the Saber Glide Series is available in three cleaning width choices—28"(71 cm), 32" (81 cm) and variable width 28" to 36" (71 to 91 cm).

Technical Specifications

Model Number:	SG28	SG32	SG36
Cleaning Path:	28" (71 cm)	32" (81 cm)	28"-36" (71-91 cm)
Brushes:	2 x 14" (35.5 cm)	2 x 16" (41 cm)	3 x 12" (30.5 cm)
Brush Motor:	2 x .8 hp (600 watt)	Same	3 x .8 hp (600 watt)
Brush Speed:	300 rpm	Same	Same
Brush Pressure:	0-225 lbs. (0-102 kg)	Same	0-150 lbs. (0-68 kg)
Drive Motor:	1.3 hp (970 watt)	Same	Same
Maximum Transport Speed:	4 mph (6.5 km/h)	Same	Same
Tires:	12" (30 cm) solid (standard)	Same	Same
Solution Control:	Gravity feed, fully variablewith automatic shut-off in neutral	Same	Same
Solution Tank:	30 gal. (114 liter)	Same	Same
Recovery Tank:	30 gal. (114 liter)	Same	
Vac Motor:	.75 hp (552 watts), 3 stage	Same	Same
Electrical System:	36 V – Six 6V 250, 305 or 335 A/H batteries, Chargers available	36 V – Six 6V 305 or 335 A/H batteries, Chargers available	36 V – Six 6V 305 or 335 A/H batteries, Chargers available
Weight: (without batteries)	790 lbs. (369 kg)	Same	825 lbs, (375 kg)
Dimensions: (LxWxH)	64" x 33" x 54" (163 cm x 84 cm x 137 cm)	64" x 38" x 54" (163 cm x 96 cm x 137 cm)	64" x 33" x 54" (163 cm x 84 cm x 137 cm)
Options:	Backup alarm kit Flashing light kit Headlight kit Accessory pump kit Second vacuum motor kit Solution recycling kit	Same	Same

 INNOVATIVE EQUIPMENT SOLUTIONS

Saber Glide 28 and 32

The Saber Glide 28 has the speed of a rider with the maneuverability of a walk-behind. The Saber Glide 32 increases productivity in open, unobstructed areas.

Easy to Use

Saber Glide's operator's compartment offers the comfort and familiarity of an automobile. Full control of the machine is in clear sight and at the operator's fingertips. From the compartment, the view of the work area is unobstructed for safer, more productive cleaning.

The control panel is intuitive and features one-button scrubbing for reduced operator training.

Saber Glide provides a tight turning radius, fits into a standard elevator and will easily drive through a standard 36-inch (91 cm) doorway (SG28 and SG36 models only).

Easy to Maintain

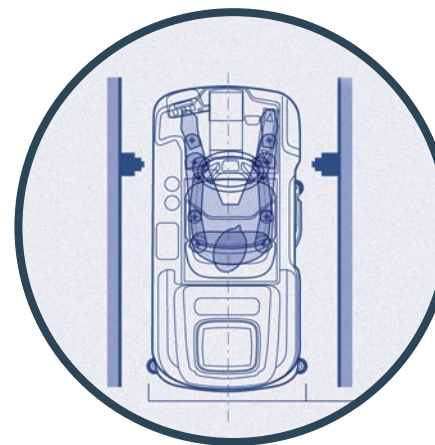

Daily maintenance operations on the Saber Glide have been simplified to increase productivity.

- Easy to mount and remove brushes or pad drivers
- Wide open accessibility to batteries and motors
- Easy access to recovery tank clean-out

Saber Glide 36 with Squeeze Play™ Scrubbing Capability

The variable width Saber Glide 36 offers the same performance features as the SG28 and SG32 models with the productivity enhancement of patented Squeeze Play. Squeeze Play allows the operator to extend the scrubbing width of the machine from 28 inches (71 cm) to 36 inches (91 cm) during operation. With Squeeze Play de-activated the machine cleans with the maneuverability of the SG28 model. In open areas the operator can simply flip a switch and extend the brush housing to 36 inches (91 cm) for increased scrubbing productivity.

Both the SG28 and SG36 models were designed with the ability to easily drive through a standard 36-inch (91 cm) doorway to simplify transportation to and around the job site.

When Squeeze Play is activated the brush housing is shock-mounted to protect the machine and allow Saber Glide 36 to clean in tighter areas.
