

# Charger 2717 DB

27-Inch Battery Burnisher

The Charger 2717 DB battery burnisher is a completely new design, producing a wet-look shine without the need for operator adjustment.

- 70-80 pounds of pad pressure ensures a brilliant, high gloss shine no operator adjustment needed.
- Hinged 90° head mechanism for compact storage and standing pad changes.
- Durable chain-drive wheel enhances maneuverability. Ergonomic variable speed drive system assures tremendous productivity by allowing the operator to work at a comfortable pace.
- Offset body keeps the operator centered in the workpath for greater visibility, while the low profile offset pad driver makes burnishing under shelves easy.
- Six-325 AH batteries result in up to 3 hours of constant run time.
- Quiet operation (only 68 dBA) provides scheduling flexibility to burnish floors in occupied facilities at any time, with minimal disruption to customers and coworkers.
- 10-gage steel channels create a strong, rugged structure.

- 1** Digital readout lets the operator know the percentage of usable battery life remaining. It also displays diagnostic codes if service is needed.
- 2** The durable powder-coated 12-gage body is built for heavy-duty commercial use.
- 3** The built-in battery tray and drain permit quick clean-up in the case of battery acid spills inside the machine.
- 4** The variable-speed centrally located wheel-drive makes the Charger 2717 DB extremely maneuverable.
- 5** The Flexiwall shield surrounds the pad, preventing debris from entering the pad rotation area.
- 6** The Vac-Trac Dust Control System collects floor finish and pad dust in a filter bag on the head for enhanced IAQ.
- 7** The on-board battery charger provides the convenience of recharging anytime, anywhere.
- 8** The optional sully attachment allows the operator to increase productivity by riding behind the burnisher.

## DO NO HARM™

The 90° tip up head allows easy pad changes, an ergonomic feature that increases operator safety.

Twister approval means stone and concrete floors can be burnished without harmful chemicals, protecting the environment.
