

Model shown with optional equipment. Design and specifications subject to change without notice. Specifications may vary depending on chassis type.

GENERAL SPECIFICATIONS	
Total Empty Weight	8,000 lbs (3629kg)
Curb Weight	5276 lbs (2393kg)
Wheelbase	133" (3378mm)
Sweeping Width	81" (2057mm)
With One Broom Option	97" (2464mm)
Turning Radius	274" (6960mm)
Overall Length	221.1" (5641mm)
Overall Width	89" (2252mm)
Overall Height	77" (1956mm)
CHASSIS	
A selected truck chassis is provided to give adequate ratings of all components compatible with hopper capacity. Consult factory for detailed requirements.	
HOPPER	
Volumetric Capacity	2.0 cubic yards (1.53 m³)
Dumping Material	Hydraulic Heavy Guage Steel
Dump Height	67" (1702mm)
Dumping Tilt Angle	88 Degrees
Inspection Doors	1 on Left Side 2 on Right Side
Controls	Electric; In-Cab
Paint	Dupont Imron 5000
FAN SYSTEM	
Type	Whisper Wheel SM Turbine
Drive	Hydraulically Driven, Variable
Number of Blades	10
Diameter	24" (610mm)
Construction	AR Hardox Steel
Housing Liner	Bolt-In Corded Rubber
Mounting	Overhung Load Adapter
Vacuum Enhancer	For Heavy/Light Material
SWEEPING HEAD	
Type	Blast and Suction (right to left)
Operating Direction	Forward and Reverse
Suspension	2 Trailing Arms; Spring Balanced
Length	81" (2057mm)
Blast Hose Diameter	10" (254mm)
Suction Hose Diameter	10" (254mm)
Flap Design	3 Flaps
Control	Hydraulic Raise and Lower
Skids	Tungsten Carbide
ELECTRICAL SYSTEM	
Battery	12 volt 750 CCA
Controls	Electric; In-Cab
Circuit Protection	Automotive Style Fuses
WATER SYSTEM	
Tank Capacity	25 gal (95l)
Construction	Polythylene
Pump	Electric 12 Volt
Controls	Electric; In-Cab
Filter	Fine Mesh Screen
Mounting	Removable
Fill Diameter	3" (76.2mm)
GUTTER BROOM(S)	
Type	Vertical Digger
Segments	2, Disposable, Poly
Diameter	16" (406mm)
Length	8.5" (32mm)
Drive	Hydraulic Torque Motor
Speed	Variable
Mounting	Trailing Arm Design
Location	Under Cab
Suspension	Free Floating
Wear Adjustment	Automatic
Impact Protection	Spring
Tilt Angle Adjustment	Manual; At Broom

HYDRAULIC SYSTEM	
Type	Piston Pump
Fluid Capacity	33 gal (150l)
Purpose	Power Fan, Gutter Broom, Raise/Lower Head and Hopper
Cylinders	2 @ 4" x 16" (102mm x 406mm)
OPTIONAL EQUIPMENT	
Stainless Steel Hopper Curb Blower Draggin Skids Special Paint LED Bar Light – 24" High Visibility Package	
LIMITED WARRANTY	

12 month / 1200 hour, 60 month hydraulic system; call for complete details.

NOTE: Specifications are subject to change without notice

Schwarze S235

2.0 Cubic Yard Parking Lot Sweeper

Model shown with optional equipment.

2.0 Cubic Yard Parking Lot Sweeper

SCHWARZE INDUSTRIES

Since its inception more than 35 years ago, Schwarze Industries, Inc. has grown to become one of the world's largest sweeper manufacturers and a leader in sweeping technology.

Headquartered in Huntsville, AL., Schwarze has a dedicated workforce of more than 200 employees, manufacturing street sweepers, parking lot sweepers and road repair units. In 1996 Schwarze opened a manufacturing facility in Brisbane, Australia to meet the demand for products in other parts of the world.

To date, Schwarze Industries' products operate in more than 35 countries.

Standard Equipment

- 2.0 cu yd Carbon Steel Hopper
- 16" Diameter Gutter Broom
- 24" Diameter AR Hardox Steel Fan
- Vacuum Enhancer
- Large Tool Storage Box
- Backup Alarm
- Pressurized Dust Control System
- 81" Reverse Sweep Pickup Head
- High Visibility Carbide Skids

Conventional Chassis

- Gasoline Engine
- Automatic Transmission
- Low Profile Design

Tool Storage Box

- 15.4 Cubic ft of Storage Area
- Dual Lockable Steel Latches
- Durable All Steel Construction
- Backpack Storage Area
- Additional Storage at Rear

24" Whisper WheelSM Fan

- Hardox AR Steel
- Rubber Lined Housing
- Vacuum Enhancer

2.0 Cubic Yard Hopper

- Allows For More Time Sweeping
- 67" High Dump
- Welded "No Leak" Steel Construction
- Large Side Inspection Doors
- Exterior Latches

Aluminum Dump Door

- Easy Access For Cleaning
- Safety Prop
- Corrosion Resistant

Hopper Screen

- Easy Access For Cleaning
- Full Width And Length For
- Maximum "No Clog" Airflow

LED Lighting

- Built-in Hopper Strobe Lights
- High Intensity Broom Light

Optional Equipment

- Stainless Steel Hopper
- Curb Blower
- Draggin Skids
- Special Paint
- LED Bar Light – 24"
- High Visibility Package

Hydraulic System

- Pressure Compensated Piston Pump
- Variable Speed Fan Adjustment
- 5 Year Limited Warranty**

Dust Control

- 25 Gallon Polyethylene Tank
- 12v High Pressure/ Low Volume

81" Pickup Head

- Sweeps In Reverse
- 10 Inch Diameter Hoses
- Carbide Skids

16" Diameter Gutter Broom

- Vertical Poly Digger
- In-Cab Controls
- Spring Suspension

S235 SWEEPER

The Schwarze Model S235 single engine sweeper has been designed to provide a cost effective solution for today's value driven shopping center maintenance client. Powered by a pressure compensated piston pump driven from the chassis engine, the S235 eliminates the need for an auxiliary engine. Reduced operation costs are quickly realized by lowering fuel consumption requirements as well as costs associated with maintaining an auxiliary engine.

The S235 easily picks up cans, bottles, cups, cigarette butts, paper, diapers, bags and the general litter associated with parking lot maintenance. The low profile (6'5") enables the sweeper to operate in height restricted area such as parking garages. The S235 features a 2 cubic yard hopper capable of dumping into a 67" high receptacle. For those in harsher environments, a Stainless Steel option is available.

At the heart of the S235 sweeper is the pressure compensated piston hydraulic pump which powers the fan, hopper, pickup head and gutter broom hydraulics. The direct drive 24" blower fan allows for variable adjustment for unmatched fuel efficiency and sweeping performance in a wide range of applications. Abrasion Resistant Hardox steel construction and a rubber lined fan housing ensure maximum longevity. An adjustable

vacuum enhancer is also provided for various sweeping conditions. The new "no clog" full width and length hopper screen ensures continuous air flow to maximize performance while minimizing the chance for blockage.

Debris is removed from the surface via an 81" width blast and suction pickup head featuring high visibility carbide skids and the Schwarze "Sweeps in Reverse" design to ensure against damage.

Dust control is provided by a high pressure / low volume pressurized spray system with spray nozzles located at the gutter broom, pickup head and inside the debris hopper. The 25 gallon polyethelene water tank ensures long periods between fill-ups.

The S235 is equipped with a heavy duty lockable steel storage box with ample storage for tools, bags, broom, shovel, and even backpack blower. Built in LED rear strobes and high intensity curb light ensures excellent visibility.
