### Propane Burnishers

- 21 or 27 inch Size Configurations
- Clean and Efficient Catalytic Converter
- Optional Dust Control Models with electric clutch and CARB Gard™ monitor emissions

Trusted. Reliable. Efficient.

**Clarke**<sup>®</sup>

# Powerful Results with Superior Dust Control

When you need floor equipment to quickly burnish large surface areas to a high gloss, turn to the manufacturer who provides the most power available. Clarke® propane-powered burnishers are available in 21 inch and 27 inch path sizes, so you can choose the best match for your productivity needs. The Dust Control Series also offers superb dust control which is often critical for retail stores, office buildings, educational institutions, supermarkets and sports facilities.

All models have Kawasaki Twin-V engines that provide maximum power.

Large 20 pound 80% safety fill propane tanks offer long working time between refills and also prevents overfilling.

Balanced pad drivers reduce vibration and are flexible to follow the contour of uneven surfaces over floors.

# Clarke® PBU Burnishers

- 1** Both 21 inch and 27 inch models available
- 2** Flexible pad driver follows contour of uneven floors
- 3** Powder-coat finish resists oxidation and cleans easily
- 4** Durable, rugged cast aluminum alloy housing
- 5** Catalytic converter cleans exhaust emissions
- 6** 603cc Kawasaki twin engine gives powerful, dependable performance
- 7** Electric solenoid lock-off shuts off fuel when engine stops running
- 8** Long-lasting, maintenance-free gel battery will not spill
- 9** "Tip-back" capability facilitates easy pad change
- 10** Adjustable, ergonomic handle for operator comfort

The Dust Control series offers a unique floating shroud that directs the high velocity airflow near the floor to collect six times as much dust as competitive models.

Controls include electric key start switch, hour meter and optional CARB Gard™ emissions monitor.

### What enhances its productivity?

- Powerful engine maintains speed under heavy loads
- Flexible pad driver follows contour of uneven floors
- Large 20 pound (9 kg) propane tank offers long working time between refills
- Effective dust control eliminates dust on merchandise, reduces pad build-up

### What does it do best?

- Accomplishes high-gloss burnishing with the most power available
- Completes large areas fast for high productivity
- Reduces operator fatigue with ergonomic comfort
- Easy to maintain

### What are the optional features?

- Electric clutch
- CARB guard™ monitor
- Dust containment system

### What are the safety features?

- Catalytic converter for clean air exhaust
- "CARB Gard™" emissions monitor
- 80% safety fill tanks prevent overfilling
- Safety certification program
