

Combining innovation, reliability and performance, the Clarke Vantage 14 marks a breakthrough in daily scrubbing for small area cleaning

Clarke Vantage 14

Battery Operated Micro Scrubber

- **Patented, rotating deck** enables complete scrubbing in both forward and backward directions
- **Full battery-powered operation** and **onboard battery charger** minimizes downtime and guarantees continuous scrubbing performance
- **Compact, maneuverable design** allows cleaning in areas with limited space
- **Quiet operation, at only 64 dB A,** makes daytime cleaning possible
- **Brush-assisted operation** minimizes required physical labor, allowing operators to scrub longer

Trusted. Reliable. Efficient.

Clarke®

Unique deck, compact design and battery-powered operation deliver superior scrubbing performance

Patented Rotating Deck

Never skip those hard-to-reach areas again. The Vantage 14's integrated rotating deck enables complete scrubbing in both forward and backward directions, allowing operators to easily clean under and around obstacles. Simply push the machine forward; then when needed, easily flip the machine up to allow the deck to quickly rotate for reverse scrubbing operation. With fast and easy scrubbing and water pick-up in all directions, the Vantage 14 leaves a clean, dry surface to boost your facility's appearance.

Effortless & Reliable Operation

Employing brush-assisted operation, the Vantage 14 does the hard pushing for you, requiring significantly less physical labor. Adjustable water flow allows you to quickly switch between high or low flow settings, making it easy to tackle the job at hand. Say goodbye to annoying cords and limited scrubbing time and maximize your productivity with the Vantage 14's fully-accessible, maintenance-free battery, which provides up to 100 minutes of scrubbing on a single charge. An onboard battery charger allows operators to charge the machine in any electrical outlet.

Fast, Simple Maintenance

The Vantage 14's easily-accessible, removable 3 gallon solution and recovery tank can be quickly filled, drained and cleaned away from the machine, ensuring less mess and minimal equipment maintenance. All machine components are accessible without the need for tools—including the squeegee, which features simple, one hand removal. When you're done, simply fold the handle and transport the Vantage 14 to storage.

Faster, better and easier scrubbing!

Control panel

The Vantage 14 offers four operating modes, including: off, water + brush, water + brush + vacuum, and vacuum only. Two adjustable flow rates—low and high—allow operators to easily match diverse application requirements.

Foldable handle and compact design

A compact design and foldable, completely-adjustable handle makes the Vantage 14 easy to transport and store. Upright storage keeps pressure off the deck and brush, extending operating life.

Recovery and solution tanks

Easily remove the recovery and solution tank to fill, drain and clean them away from the machine.

Vantage 14

Easy-to-use control panel has four operating mode options, allowing for diverse scrub settings

Foldable/adjustable handle makes transport and storage easy

Recovery and solution tank can be quickly and easily removed for refill, dumping or cleaning procedures

Standard, onboard battery charger saves time and increases productivity

Durable brush and heavy-duty polyurethane squeegee blades can be easily changed without the use of tools

Integrated squeegee allows forward or backward cleaning

Scrub deck

The Vantage 14's rotating deck allows for both forward and backward scrubbing. Operators can push the machine forward in all directions like a "normal" scrubber. But, if the application requires, operators can quickly flip the machine up, triggering the deck to rotate completely for backward scrubbing performance.

SNAP
IT!

SPECIFICATIONS		Vantage 14
Part Number	9087305020	
Max Speed	2.5 mph (4 kph)	
Voltage	12 V	
IP Protection Class	IPX4	
Isolation Class	III	
Rated Power	450 W	
Brush Motor	240 W	
Vacuum Motor Power	200 W	
Airflow	17.8 L/Sec	
Vacuum	6.9 KPA	
Sound Pressure Level	64 dB A	
Maximum Run Time	1.75 hours	
Productivity Rate Theoretical / Actual (low/high)	3,500 ft ² / 7,000 ft ²	
Scrubbing Width	14.5 in (37 cm)	
Min. Turn-around Aisle Width	33.5 in (85 cm)	
Water Flow	.066 / .132 gpm	
Solution / Recovery Tank	3 gal (11 L)	
Squeegee Width	18.7 in (47.5 cm)	
Brush Pressure	60 lb (27 kg)	
Brush Speed	140 RPM	
Brush Size	(1) 14.5 in (37 cm)	
Dimensions (L x W x H)	28 in x 17 in x 18.5 in (71.1 cm x 43.2 cm x 47 cm)	
Battery Compartment Size (L x W x H)	13.5 in x 6.5 in x 9.4 in (34.3 cm x 16.5 cm x 23.9 cm)	
Weight	93 lb (42 kg)	
Operating Weight	158 lb (72 kg)	

Specifications are subject to change without notice.

Applications

- Gas Stations
- Convenience Stores
- Food Service
- Kitchen and Restaurants
- Education Facilities
- Healthcare Facilities
- Retail Stores

“Green” benefits

- Battery operation

Safety features

- Safety switch prevents machine from starting unexpectedly
- Quiet operation

Accessories

- Squeegee kit
- Blade squeegee kit
- Multiple brushes available
- Multiple pads available
- Pad holder
